Description

This 12" blade is called the Life-Saver, This is the 1st blade in the Diamond industry to successfully cut metal. This blade cuts Steel, Rebar, Ductile Iron & Angle Iron, cuts concrete & brick, pvc piping, roof decking & wood!!!, It is the best Ductile / Demo diamond blade on the market as even municipalities are starting to use these in their fire/rescue operations.

Cuts twice as fast as abrasives and lasts up to 70 times longer, so instead of paying 250-350 for 70 abrasive wheels and having to lug around over 100 lbs in abrasives you can simply get 1 of these and be set.

Specs - 12 X .125 X 5MM X 1"/20MM Arbor, Rated up to 13HP
