Description

This blade is specifically designed with a super thin core/kerf for Porcelain & Ceramic Tiles along with Marble. Its a step above any straight continuous rim due to the laser cut notches in the core that will provide the blades core the ability to flex and prevent warping or wobbling, You can expect fast chip free cuts with this blade as well as long life.

This blades 4" in diameter with a .048 thickness, has a 5/8 Arbor & a 6MM Rim.
